GI-NI International Conference

The Impact of the Global Transformations on Inequality

May 25th 2023 - University of Agder, Norway

Call for papers

ORGANISERS

The first conference on the economic impact of technological transformation, globalisation and migration will take place on May 25th 2023, at the University of Agder, Norway.

ABOUT THE CONFERENCE

Over the past decades, inequality within populations has widened in the majority of countries regarding many dimensions of life. This has been of central concern for both policymakers and researchers alike. To formulate remedies, we must have an integral understanding of the drivers of such widening inequality and their interactions. In addition, we must understand the strengths and weaknesses of our current institutions to deal with these issues. This conference aims to bring together researchers from different disciplines to share and discuss their recent findings related to widening income inequality, living standards, and prosperity more broadly.

Researchers from all fields of economics, political science and sociology are invited to present new research results and discuss possible directions for future research activities. We welcome the submission of papers with an empirical, theoretical, and/or policy orientation focusing on micro- or macroeconomic aspects of inequalities linked to globalisation, migration and technological change. The analysis should focus on Europe or be related to it.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement number 101004494.

Co-funded by the Horizon 2020 programme of the European Union

SUBMISSION AND REGISTRATION

Please submit (in pdf format) an extended abstract of your paper (approx. 800 words) or the complete paper along with a cover letter including i) paper title, ii) name(s) of the author(s), and iii) affiliation as well as the email address of the presenting author, to Prof. Dr. Steven Dhondt (steven.dhondt@tno.nl)

Abstracts must include context, purpose, methodology, major findings, implications and keywords. The criteria for selection of papers will be: relevance to the conference theme, quality of methodology, originality, embedding in the literature and soundness of conclusion/s.

IMPORTANT DATES AND FEES

Extended abstract submission	January 30th 2023
Notification of acceptance of abstract	Febreaury 28th 2023
Last date for submission of selected papers	April 28th 2023
Last date for registration	May 1st 2023

Registration for participation for presenting attendees is May 1st, 2023. Furthermore, please note that it is possible to attend the conference without presenting a paper. Enquiries for non-presenting attendees should be made by the GI-NI Website (<https://gini-research.org/event/international-conference>) no later than May 1st, 2023.

This conference benefits from the financial support of the European Commission, through the GI-NI (H2020) project and participation is free of charges.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement number 101004494.
